

BioMedES Ltd

“Producing the very best definitive versions of your biomedical reports and scientific papers”

www.biomedes.co.uk

Never heard of us? Not surprising, since our operations are mostly “behind the scenes”. But we may be able to help you with your publication problems, from technical notes to e-books!

What does **BioMedES Ltd do?**

- BioMedES **reworks sound scientific papers, technical reports, and other (biomedical) documents**, putting them into the most idiomatic English and that passes the most stringent peer review and quality control assessments
- Its **copyedits** for a number of big biomedical publishing houses
- BioMedES assists in the running of **four journals** in the life sciences
- It provides the Secretariat for **an international organization** for cell biology (www.ifcbiol.org) and an enterprise company
- It prepares and publishes **e-books in biomedicine**
- It designs **logos** for biomedical and many other organizations
- It **collates** and **prepares abstracts** for scientific and other meetings
- The company is involved in arranging both **national and international conferences**.
- It also runs courses on **scientific and medical writing**, and on **electronic publishing** at home and abroad
