EASE Seminar 2004
Barcelona

European Association of Science Editors
Armchair the Seminar
Scientific Publications in a Digital Age
Barcelona, 7 May 2004
do the media justify changes?
do changes j&om [&] make a new paradigm?
Professors involved in different areas of the publishing world will offer their views about the new age in which almost anything can be converted into info-parts. Professors, publishers, retailers, librarians and freelance writers will play in the seminar.
The seminar will be run before the Annual General Assembly of EASE.
